Report of

MRS. V. J. ELMORE

President

at the

Fifteenth Annual Meeting

of Stockholders

March 22, 1949

#### TO THE STOCKHOLDERS:

The Statement of Condition of your Company at December 31, 1948, and a comparative summary of earnings and expenses in 1948 and 1947 are included in this report. These figures are presented in a manner which it is believed will be informative and easily understood by the shareholders.

Sales for the year reflect a substantial increase over 1947 sales. Net profits are regarded as satisfactory. Dividends have been paid in amount to permit a reasonable retention of funds so as to provide sufficient funds for carrying increased inventories and to provide a margin in case of any reverses.

During the year the number of stores in operation was increased to fifty-two, an additional unit having been opened at Moulton, Alabama. One unit located at North Birmingham, Alabama, has been temporarily discontinued because of damage from fire on January 30, 1949, subsequent to compilation of this report. This store should again be in operation at an early date. The Birmingham Warehouse has been enlarged by addition of space to provide more adequate packing and shipping facilities.

I wish to thank the Directors and Officers for their counsel and the entire personnel for their attention and efforts resulting in another satisfactory year of operation.

With best wishes to each of you, this report is respectfully submitted.

MRS. V. J. ELMORE, President.

# ERNST & ERNST ACCOUNTANTS' REPORT

Board of Directors V. J. Elmore 5c, 10c and \$1.00 Stores, Inc. Birmingham, Alabama.

We have examined the balance sheet of V. J. Elmore 5c, 10c and \$1.00 Stores, Inc., as of December 31, 1948, and the related statements of profit and loss and surplus for the year then ended. Our examination, except that we did not have representatives present at the time physical inventories were taken at the fifty-two retail stores operated by the Company, was made in accordance with generally accepted auditing standards, and accordingly included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances.

Merchandise inventories on hand at the retail stores and at the warehouse are based upon physical counts which were made under supervision of the management from December 31, 1948, to January 26, 1949, and were adjusted for intervening transactions to December 31, 1948. The store inventories are priced at cost as determined by the retail inventory method, and the warehouse inventory is priced at the lower of cost or market as determined by the first-in, first-out method of inventory valuation. We were present at the warehouse at appropriate times during the taking of inventories, observed the procedures followed in determining quantities, and made test counts of items appearing in the inventories. We also reviewed the application of the retail inventory method and related computations, and tested the pricing, extensions, and the tootings of the inventories.

In our opinion, subject to the limitation of the scope of our examination with respect to inventories as set forth in the first paragraph of this report, the accompanying balance sheet and statements of profit and loss and surplus present fairly the financial position of V. J. Elmore 5c, 10c and \$1.00 Stores, Inc., at December 31, 1948, and the results of its operations for the year then ended, in conformity with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

ERNST & ERNST.
